Hey Marc,  
I forwarded your information to my Capt. We just watched a demo for the Neighborhood app and Law Enforcement Ring portal. My Capt had some questions he needs answered before we sign up. Thanks for all your help.

**Subject:** Re: Neighbors Portal Implementation [CCSO]

Combining your questions below:

On the ring neighbors portal, Ring owners can post only but all subscribers can see.  
Anyone can post. The Neighbors Feed consists of two groups: Ring app users sharing Ring videos from Ring devices, and Neighbors app users who either own a some other competing system or none at all. (Even if a user doesn't have any security cameras at all, they can still share cell phone footage or still images.)

On the law enforcement ring portal, ring owners can post

The law enforcement portal allows you to see all of the posts from the Neighbors Feed for your entire jurisdiction.

and we can post to all thru the request video tab

The video request tab isn't a public post, its a feature that allows you to send automated emails specifically to Ring customers who match the criteria in your request (eg, they own a Ring device, are within the polygon you outlined on the map, AND have recorded events during the timeframe you are requesting. and the neighbors feed tab.

Correct, the posting feature at the very top of the feed allows you to send out a public post as an agency to the area which only reach people who live within approx. 3mi radius of the address specified.

Let me know if you think of any others!

Best,

Hi Kimberly. No, we don't have a ready-made .pdf with roads and buildings but we can create whatever you need since we have the data in GIS. We need a bit more information to create this map for you. A countywide .pdf map, even if it is a huge poster, would not allow for a scale to show buildings in any meaningful fashion. Stephen, copied on this email, will be in touch to get some additional information and complete this work for you.

**Sent:** Friday, July 26, 2019 11:09 AM  
**To:** Lennartz, Kimberly A. <Kimberly.Lennartz@calvertcountymd.gov>  
**Subject:** Ring Followup & MOU

Thanks for your time this morning! Attached to this email is a copy of the partnership MOU. Please circulate for review and signature. If there are any issues, please let me know.

The cornerstone of our effort to reduce crime in neighborhoods is the Neighbors app, a free smartphone app that allows citizens to participate in a digital neighborhood watch, sharing crime and safety information with their neighbors.

- The Neighbors app is free to download. Users are not required to own a Ring device.
- Neighbors share crime and safety information with their neighbors in the form of video, photos or text.
- The app is completely vendor neutral. Neighbors can upload and share videos from any home surveillance system, still photos or text.
- Neighbors receive real-time alerts about crime and safety incidents occurring in their neighborhood.
- Moderators actively review all posts to ensure they are crime & safety related.

The Neighbors Law Enforcement Portal is a web-based portal that allows law enforcement to collaborate with members of the online community using the Neighbors app.

- The Neighbors Portal displays all of the publicly shared posts from the neighbors app in the form of an

interactive feed and pin map.

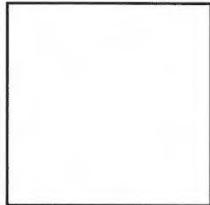

- Law enforcement can engage neighbors by commenting on posts, requesting or sharing additional information.
- The Portal allows law enforcement to send hyper-local alerts to neighborhoods.
- When a crime occurs, the Portal provides a mechanism to submit a request for video to Ring device owners.
